This assessment sheet may be utilized for two purposes: 1. to review current Physical Restraint Policies / Procedures in place 2. to assist in the development of an effective Physical Restraint Reduction Program

Assessing Physical Restraint Reduction Policies and Procedures

The term neglected tropical diseases (NTDs) describes a disparate group of diseases which affect populations living in poverty and are important causes of morbidity and mortality worldwide. Global programmes for the control of NTDs benefit large-scale donations made by pharmaceutical companies. A number of NTDs have internationally agreed targets for their control, elimination and eradication.
