As in the past, each chapter heading represents one of the Quality System Essentials and the quality standards are supplemented by technical requirements. The

2020 AABB Publications Catalog

Blood transfusion is a medical therapy that can be life-saving. As with any treatment, however, transfusion of blood or blood components must be ordered and administered safely and appropriately. Transfusion is more than a single discrete event—it is a process. The transfusion chain begins with donor considerations (whether their donation is safe for them to make and whether the donation is safe for any patient to receive).

Transfusion Medicine - AABB

The BC Provincial Blood Coordinating Office (PBCO) promotes the delivery of safe, effective, and efficient transfusion services throughout British Columbia. Established in 1997, the office serves as a medium for communication and consultation on provincial blood issues, provides a forum for blood policy planning and program implementation, and supports the needs of hospital blood banks in BC.
