City Street And Citizen The

The city street is perhaps the most prosaic of the city's public parts, allowing us a view of the very ordinary practices of life and livelihoods. By attending to the expressions of conviviality and contestation, 'City, Street and Citizen' offers an alternative notion of 'multiculturalism' away from the ideological frame of nation, and away from the moral imperative of community.

Review: 'City, Street and Citizen'

'City, Street and Citizen' focuses on the question of whether local life is significant for how individuals develop skills to live with urban change and cultural and ethnic diversity. To animate this question, Hall has turned to a city street and its dimensions of regularity and propinquity to explore interactions in the small shop spaces along the Walworth Road.

A. Intent: The intent of the off-street parking standards is to provide adequate parking for individual uses within the City. These standards are based on the assumption that intensity of use governs the need for parking. For example, restaurants are typically more intense than office uses and require a higher ratio of parking.

The street is where citizens are public, where they develop the behavioural repertoires of commonality and difference, belonging and strangeness, attachment and disgust. Though citizens are presumed to have identities that are formed in nations and communities, the street is where these identities take tangible shape, sound, sight, and smell.
