This engine has 4 valves per cylinder, 2 intake and 2 exhaust, for a total of 16 valves on the engine. Conclusion. The D16Y8 was a great engine in the Honda Civic EX and Del Sol Si without too many problems or complaints. In fact, it is still a popular swap engine for those looking to upgrade from previous versions of the D16 engine without VTEC.

These engines usually have 13:1 or higher compression. The goal with the Ultra Build is to make the most WHP possible while still retaining race reliability. Ultra Build engines receive our CNC ported cylinder heads when possible, and in the case the CNC head is not used, we do a meticulous port/polish by hand, complete with flow bench testing.

The sixth generation Honda Civic was introduced in 1995 with 3-door hatchback, 4-door sedan and 2-door coupe body styles, replicating its predecessor's lineup. A 5-door hatchback was also produced to replace the Honda Concerto hatchback in Europe but this model, while using the same design language as the rest of the Civic range, was quite distinct, instead being a hatchback version of the ...
