You can search Google Books for any book or topic. In this case, let's go with "Alice in Wonderland" since it's a well-known book, and there's probably a free eBook or two for this title. The original work is in the public domain, so most of the variations are just with formatting and the number of illustrations included in the work. However, you might also run into several copies for sale, as reformatting the print copy into an eBook still took some work. Some of your search results may also be related works with the same title.

Explorer Manual Transfer Case Conversion

Electronic transfer case no more, convert it to manual. April 11, 2013. Last fall my electronic transfer case decided not to allow me into 4-Low. Normally this isn't an issue, but I was needing to pull some trees around after felling them and didn't want to burn out my clutch.

Electronic transfer case no more, convert it to manual ...

The transfer case contains a Transfer Case Clutch Coil, which is what locks the front and rear driveshafts together. Power for the TCCC is fed via a brown wire, hence the familiar name. The Transfer Case Clutch draws approximately 5A of current. Make sure that all the components used in the wiring and switch are rated for at least 10A to be safe.

Control Trac Transfer Case Modification Brown Wire ...

Products made specifically for Ford Ranger / Explorer based vehicles. ... Borg Warner Transfer Case, Electric To Manual Shift Conversion. Regular price \$299.00. BW1354 Strong Box Shorty. \$999.00. Now a manual transfer case requires quite a bit of work. I havnt done this so I don't really know what needs to be done but I know its a lot of fabrication. Hurley, Jun 8, 2011 #3. 02RGRSP New Member. Thanks, Dang it! I figured as much. Guess I have to fix what I have.

Manual Shift kit for your Electric Transfer Case! | Ranger ...

Depending on the year, the 1983-2011 Ford Ranger 4x4 was offered with a BW1350 or BW1354 transfer case, and were available as a manual shift, or electronic shift. The BW1350 and BW1354 are both 3-piece aluminum part time transfer cases. They both transfer power from the transmission to the rear axle, and the front drive axle when actuated.

From 1991-1994 the Ford Explorer platform came with a full ladder type frame based on the tough Ford Ranger platform, an extremely tough 8.8" 31 spline rear axle, Dana 35 Twin Traction Beam (TTB) front suspension (axle diameters and U-joints are the same as a Dana 44), choice of a manual or electronic shift BW1354 transfer case with low range ...

Ford Explorer, Sport Trac, Ford Ranger, Bronco II, Mazda ...

I read one of the Q&A's that said the auto lock front hubs of the Ford/Dana 35 COULD NOT be replaced with the manual hubs. I worked at Ford in Powertrain Development on the Ranger/Explorer platform for a number of years and we regularly swapped the hub sets as needed to match the transfer case - manual or electric.
