The International Date Line (IDL) is an imaginary line of demarcation on the surface of Earth that runs from the North Pole to the South Pole and demarcates the change of one calendar day to the next. It passes through the middle of the Pacific Ocean, roughly following the 180° line of longitude but deviating to pass around some territories and island groups.

### International Date Line - Wikipedia

Plot synopsis. The story is about a class of students on Venus, which, in this story, is a world of constant rainstorms, where the Sun is only visible for one hour every seven years.. One of the children, Margot, moved to Venus from Earth five years earlier, and she is the only one who remembers sunshine, since the sun shines regularly on Earth.
