Building paper models of spacecraft is a fun and interactive way to learn more about NASA's missions. Models are available for easy, moderate and more challenging skill sets. Each model has assembly instructions and printable parts; assembly requires printing, cutting, folding and gluing.

DIY - Paper Spacecraft Models | Science Mission Directorate

Paper modeling - or card modeling - is the art of constructing things with only colored, cut and folded pieces of paper. To help in constructing each model, you will need the free Adobe Reader to print the instructions and model parts. A link to adobe.com is provided with each model. Remember: Spacecraft construction is a team activity.

Spacecraft by nature are made of lightweight materials, so a paper model can be highly realistic if it copies key structural and visual design features. Once you assemble your model, you'll know the Juno spacecraft very well indeed! First, browse the Assembly Instructions.

Juno Spacecraft Paper Model | NASA Solar System Exploration

Galileo The NASA Galileo Project offered a free model of the Galileo Spacecraft that you can download from the Galileo site free of charge, print onto your own card stock, cut out, and glue together. The extensive assembly instructions are on the Galileo web site. That's an assembled downloadable model in the image at right.

Free Spacecraft Model Kits

This is our original paper model, designed by Nina Heimpel, at Swales Aerospace. Please also note that the design of the spacecraft has changed slightly since this was designed. There is a momentum flap on the back and the solar panel array has changed. The model is approximately 1/80th scale. The files you will need for building the model:
