### Pontiac Firebird Engine

The Pontiac Firebird is an American automobile that was built and produced by Pontiac from the 1967 to 2002 model years. Designed as a pony car to compete with the Ford Mustang and Mercury Cougar, it was introduced on February 23, 1967, simultaneous with GM's Chevrolet division platform-sharing Camaro. This also coincided with the release of the 1967 Mercury Cougar, Ford's upscale, platform ...

### Pontiac Firebird - Wikipedia

Your Pontiac Firebird is the get-up-and-go coupe that still outperforms other comparable speedsters. What doesn't compete well is an engine that's overheating and causing problems. Replace your current one with a new Pontiac Firebird engine from AutoZone to keep ruling the road. You drive your Firebird because it's fun, exhilarating and stylish.
