Everything is made of matter. Some things are made of just one kind of matter, but most everyday items are made of a mixture of materials. This unit provides a solid foundation for introducing the principles of chemistry. It allows students to explore what makes up each kind of matter as well as the results that can come from combining matter.

Students are introduced to chemistry, physics, biology, etc. in a series of textbook/activity book combos that are fun and kid-friendly. There is enough teacher support, though there is also plenty of leeway to present your own material. Science Matters for 7th-12th All texts are full-color, well written and fun.

Singapore Science - Exodus Books

Lower Secondary Science Matters for grades 7-8 is a general science course covering all the basics (biology, chemistry, physics, etc.). There is a textbook (which comes packaged with an answer key), a theory workbook and practical book for each grade, both with their own teacher's edition;

while we offer the practical books, the US distributor discourages them for home school use due to the elaborate lab materials required for their use.
